## THE

### LIGHTNING FREEZER!

For Freezing all kinds of Ices, Sherbets, Ice Creams, etc, in

### Four Seconds Time.

State and county rights for sale. It contains a metal cylinder filled with ice and salt, tightly closed. Beneath is a pan to receive the material to be frozen, which coming in contact with the revolving cylinder, is immediately frozen, scraped off and discharged into a dish. WM. A. ANDERSON, Agent, Carson, Nev.

## HARRY E. MARTIN, Hauling & Draying.

Office along Main Street.

### Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

Benton's Liniment for sale at all drug stores.

### Tobacco Users Smile Sometimes

when told that tobacco hurts them: their wives never do, because shattered nerves, weak eyes, chronic catarrh and lost man-hood, tells the story. If your husband uses tobacco, you want him to quit, post yourself about No-to-bac the wonderful, harmless, guaranteed tobacco habit cure, by sending for our little book titled: "Don't Tobacco Spit and smoke your life away," mailed free. Drug Stores generally sell No-to-bac. The Sterling Remedy Co., Indiana Mineral Springs, Indiana. j19tf

### Spring and Summer Goods.

John Henderson, representing Wanamaker & Brown of Philadelphia the largest clothing and merchant tailoring house in America will be at the Arlington April 16, 17, 18, and every two weeks thereafter with a line of Spring & Summer goods. Don't miss this opportunity of getting your clothing for one-half the usual price. Perfect satisfaction guaranteed.

A. Livingston now practically controls the wholesale liquor trade of the city. He is continually adding to his stock and sells only standard brands. He is also introducing some excellent California wines to the people of Carson, as well as foreign and domestic cigars of the finest quality. Drop in and inspect his stock. d 13 tf

Alleghany, Pa., March 16, 1891. Mr. NORMAN LICHTEY, Des Moines, Ia.

DEAR SIR:—I find Krause's Head-ache Capsules a ready seller, and can say from personal experience that they are a good thing, as the other night they cured me of a bad attack of neuralgia in about one hour, when usually it lasts a day or so.

C. W. SMART.

For sale by Summers and Dauchy, Druggists, Carson, al 1m

### Physical Training

Miss Lamprey will commence with her class in Physical Training at the Armory Hall Thursday afternoon, March 16th. Children at 3:30 and ladies at 4:30 p. m. m16

## ALL SORTS.

### Measles.

Have you ever had 'em.

Jim Moore arrived on last night's train.

The dispatches say that Booth's recovery is certain.

Spring is here. The opening light occurred last night.

John Sweeny was among the departures last night.

George M. Humphrey, of Reno, was yesterday appointed U. S. Marshal for Nevada.

Adolph Sutro has refused to allow any more balloon ascensions from the Cliff House, and has ordered the railroad company to remove its poles from his property. Mrs. Hagal, the injured aeronaut, is improving, but the doctors say she will not be able to walk for six months.

It transpires that Taylor didn't put Ramsey out as was reported. The Silver State says: Taylor failed to put the colored man out in the required 10 rounds, as the latter proved to be an expert sprinter and fell repeatedly to avoid punishment, and the fight was awarded to Ramsey.

The Irish spend \$11 per capita, the Scotch \$15 14 per capita and the English \$19 16 per capita for liquors annually.

There are men in Carson who spend that much every week, and they don't claim to be hard drinkers either.

For some months past the bullion in a silver dollar has been worth 64 cents. Still that dollar will buy as much as a gold dollar, and in London or Paris will sell for 96 or 97 cents in gold. Could there be any better proof that money does not derive its value from the material of which it is made.—Mining Industry.

J. M. Campbell, a Texas sheep raiser, lost about one-fourth of his flocks last by wolves. He has now hit upon a novel plan for exterminating the wolves. He entrapped a dozen of them and kept them with a mangy dog until they caught the disease, and then turned them loose. He expects the mange to kill all the wolves in Texas within two years. This might work well with coyotes.

It does an overworked editor and the tired compositor good to see Fred Sargent's express wagon drive up to the front door of our office, (second street branch) with a keg of Klein's malt nectar; that golden extract, for a drink of which an angel would part with one of her wings. It makes life's rocky road look like a grassy, well-shaded avenue, and we take it all back; Sargent carried the beer into Jennie Forrest's next door. Such is life.

Lera Valley, in Blue Rock road district, west of the Indian Reservation in Round Valley, Mendocino county, Cal., has a sixteen-year-old girl hunter. She has killed within the past twelve months, with her rifle, eighteen deer, two large bear, one panther, eight foxes and numerous cats, and a variety of considerable small game. But trapping is what the young lady does on, and she makes a neat little sum by the sale of the fur of the animals thus taken.

### Death of Wm. M. Cary.

A dispatch from San Francisco yesterday announced the death of W. M. Cary.

Deceased was an old pioneer of the Pacific Coast, conducting the Cary House in the palmy days of Placerville. He was afterwards a prosperous farmer of Carson Valley and a few years after removing to Carson was elected Justice of the Peace. He was a sterling good citizen and a man universally esteemed. Mr. Cary was a native of Ohio and aged 79 years.

### With all on Board.

Alpena, Mich., April 24.—The steamer City of Straits reports seeing wreckage off Rogers City, supposed to be from the barge John Shaw, which is reported at Cheboygan as having been lost with all on board. The pilot-house and a quantity of wreckage was seen.

### The Manly Art.

Billy Armstrong will teach scientific boxing to a limited number. For terms apply to Billy Armstrong at Circe's Exchange. al9tf

Stray or Stolen.—One dark bay horse, branded D on right shoulder. Any information regarding him will be suitably rewarded at Carson Hay Yard, Carson, Nevada. al8

## TRANS-MISSISSIPPI.

### The Congress Organized With a Free Coinage President.

Ogden, Utah, April 25.—The Trans-Mississippi Congress reassembled this morning at 10 o'clock. Governor Prince, of New Mexico introduced Governor A. L. Thomas, of Utah. Soon after he began his speech he was interrupted by the arrival of Senator Stewart, of Nevada, Senator Warren of Wyoming and Hon. T. M. Pattison of Denver. These gentlemen were received by the members with prolonged cheers amounting almost to an ovation.

Governor Thomas in his speech took advanced ground on the silver question.

The following report of the Committee on Permanent Organization was adopted. For President, Governor J. E. McConnell of Idaho; Secretary, W. H. Harvey of Ogden; Assistants, W. J. Esterbrook of Oregon and O. W. Crawford of Texas.

McConnell being called upon, placed himself on record as favoring the free coinage of silver in the ratio of sixteen to one of gold. Twenty-two Vice Presidents were named, Hon. W. E. Sharon being named for Nevada.

At the afternoon recess President McConnell was conducted to the chair amid applause. He made a short address and there and then the Committee on Rules reported and the reports were adopted.

The next place of meeting will be San Francisco.

Hon. Tom Pattison, the silver tongued orator of Colorado speaks to-night and Senator Wm. M. Stewart to-morrow night.

### Discovered in Time.

Saltillo, Mex., April 24.—Advices have reached here of a dastardly attempt at train wrecking on the Mexican National railroad north of here near Mariposa station. At that point there is a bridge over a deep canyon. This structure was set on fire and was destroyed, but luckily the trainmen discovered it that the bridge was missing in time to prevent the south-bound passenger train from dashing into the chasm.

It is thought to have been the work of a band of brigands who have been committing depredations in this section recently. They evidently expected the train to fall into a canyon and be wrecked and it would then be an easy job to rob the survivors. A temporary bridge has been constructed and traffic on the road resumed.

### The Glove Contest.

Word comes from Reno that Turner, the burly antagonist of Walker, is training hard, and is already in pretty good shape for the fist event at the Opera House on the 4th.

Turner seems determined to win this time, as he doesn't care to endure the humiliation of a second defeat at the hands of Walker. Walker is just as determined that he won't win. The inevitable result must be something worth witnessing.

The box sheet will be open at the City Drug store this morning, where reserved seats may be had for \$1.00.

### A Paying Mine.

The DeLamar mine of Idaho, during the month of February, produced a total value of \$87,959, at a cost of \$40,708, leaving \$47,250 as profit. Of the bullion produced, 46 per cent was silver, and charging this proportion of the whole expense to silver, it made the cost of producing an ounce of silver 49 cents.

### Stockholders' Meeting.

The annual meeting of the stockholders of the Red Oak Mining Company will be held at the office of the Company in M. Cohn's store, Carson street, Carson City, Nev., on Monday, May 1st, 1893, at the hour of 2 o'clock p. m., of said day.

T. COHN,

Secretary.

The Capitol Lodging House will hereafter be run as a temperance house, and only non-intoxicating drinks and fine cigars will be sold over the bar. a51m

Doc. Benton has 300 gallons of A No 1 cider vinegar for sale in lots to suit. f23

Miss Lamprey teacher of elocution at Mrs. Hawthornes. 16mtf.

### For Sale.

N. E. Schofield offers his candy factory for sale, including a stock of cigars, tobacco, etc. The art of manufacturing candy will be taught to anyone desirous of purchasing the business. a7

## A Steam Man.

During the last two years Professor George Moore, a native of Canada, has been at work upon a motive engine, built upon the same plans as the old discarded "iron man," and at last he has succeeded in constructing a model which will not only walk about with a firm, steady gait, but also exerts considerable tractive power. The iron man looks like a medieval knight. In operation the action is quite natural, the hip, knee and ankle movements being successfully imitated. It moves along at a brisk walk and can cover about four or five miles an hour. The iron man is about 6 feet in height, and when in full operation, it is said, cannot be held back by two men.

In the body is the boiler, containing a very large heating surface, and which is supplied with a gasoline fire. Below the boiler is situated the engine. While small in size, it is a high-speed engine, running up to 3000 revolutions per minute or more, and hence is of high power, the combination of boiler and engine giving about one-half horse power.

### A Mechanical Blessing.

Bell Edwards & Co., are sole agents in Carson for the Paragon Oil Can, which is a device for filling lamps, and something every household should contain.

On one side is an adjustable shelf on which the lamp is placed. A hollow arm through which the oil comes is then bent down and thrust into the lamp.

Then you work a small pump, thus filling the lamp. It is impossible to run the oil over, as when the lamp becomes just so full the fluid runs back into the can. It can be operated in the dark, which makes it much safer than the old style, and as there is absolutely no waste it is very economical. The cans may be refilled when empty. Go to Bell's and see it at work.

### Aluminum Slate Pencils.

New uses for aluminum are being noted every day. Perhaps the most novel of recent applications of this metal is that for the construction of aluminum slate pencils. Malon Von Sillich of Meiningen found that aluminum gives a stroke on the slate and a German company has undertaken the manufacture of pencils based upon that fact. They are about one-fifth of an inch in diameter, and need no pointing, while they are at the same time unbreakable and well-nigh indestructible. The writing is clear, but requires more pressure than slate pencils demand. A wet sponge erases the marks.

### The Coming Social.

Everybody should prepare for the pie social next Friday evening, April 28th. Come and be a share in the fun. A selected musical and literary program has been prepared.

The instrumental music by Prof. W. O. Pearce will be interesting feature of the evening; also the singing of the Silver State Male Quartette.

After the program refreshments will be served, followed by an auction sale, which will create a great deal of merriment.

The members of the Epworth League have not spared time nor pains in arranging for a good time.

Admittance, 25 cents; refreshments 25 cents.

### A Finger Broken.

At Empire yesterday, Jabe Laws got his right hand caught while putting up a battery in the mill. The third finger was broken and three others crushed.

From this on I will keep 10 varieties of apple trees that will keep from March to May, such as will sell in San Francisco by the car load when California apples are going out of season. I will do my own grafting and bring the prices down. In Spring I will condense from publications East and West the cheapest and best way to abate and destroy fruit pests. I have elms and other shade trees, roses and general nursery supplies.

JOHN WOOD.

Carson, Nev., Feb. 27th, 1893.

### Pasturage.

On the Kirman ranches, which contain over 400 acres situate one-half a mile from town. Milk cows taken and delivered daily. Terms \$2 a month. Season begins April 1st.

WILLIAM SMYTH,

Leasee.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.
